PROFESSIONAL SUMMARY:

Results-driven Computer Science graduate with a passion for cybersecurity, full-stack development, and graphic design. Skilled in problem-solving, software development, and design with hands-on experience in multiple programming languages and frameworks. Quick learner with a proactive approach to technology and design. Strong problem-solving and troubleshooting abilities.

EDUCATION:

Bachelor of Science (B.Sc) in Computer Science

Parvatibai Chowgule College | 2021 - 2024

CGPA: 7.00/10

Vidya Vikas Academy, Margao Goa

HSSC | 05/2019

CGPA: 7.6/10

Vidya Vikas Academy, Margao Goa

SSC | 08/2021

CGPA: 7.4/10

TECHNICAL SKILLS:

Programming Languages: JavaScript (ES6+), Python, Java, R

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, Mongoose, MySQL

Testing: Selenium WebDriver (Python), Manual Testing, Functional Testing, Regression

Testing

Tools & Platforms: Git, GitHub, Linux, Vercel, Netlify, Postman

Other: Authentication & Authorization (JWT), Software Testing

EXPERIENCE:

Data Associate

Collectorate South Goa | Sept 2025 - Present

- Collect, clean, and maintain structured data to support reporting and data-driven decision-making across teams.
- Assist with data entry, documentation, and written tasks while providing day-to-day operational support to supervisors.

CERTIFICATIONS & TRAININGS:

- [Google Professional Cyber Security Certification Course](#)

Coursera | Apr 2024 - Nov 2024

- Applied cybersecurity best practices to identify and mitigate common threats, vulnerabilities, and risks, improving overall system security posture.
- Utilized SIEM tools to monitor, analyze, and respond to security events, ensuring protection of networks, devices, and sensitive data from cyberattacks.
- Gained hands-on experience with Python, Linux, and SQL for security analysis, automation, and incident investigation

PROJECTS:

Modern E-commerce Platform

- Developed a full-featured Modern E-commerce Platform using React, TypeScript, Supabase, and PostgreSQL, delivering a scalable and responsive shopping experience with real-time functionality.
- Designed and implemented a modern UI/UX using Tailwind CSS, featuring responsive layouts, smooth transitions, mobile-friendly interfaces, and customizable color themes.
- Implemented shopping cart and checkout functionalities with real-time inventory tracking, order confirmation workflows, and seamless user interactions.
- Utilized Redux Toolkit for efficient state management and React Router v6 for scalable client-side routing and navigation.
- Integrated Supabase backend services including PostgreSQL database management, Row Level Security (RLS), authentication, and real-time subscriptions for secure and synchronized data handling.

End-to-End Encrypted Chat Application

- Engineered a full-stack End-to-End Encrypted Chat Application using React, Tailwind CSS, Node.js, Express, PostgreSQL, and Socket.IO, enabling secure real-time private and group messaging with responsive cross-device support. .
- Implemented JWT-based authentication with optional two-factor authentication (2FA), secure session management, and role-based access controls to strengthen application security. .
- Built scalable REST APIs and real-time communication services using Express and Socket.IO for low-latency messaging, online user tracking, and live chat synchronization.
